PROFESSIONAL SUMMARY

- Experienced Java Developer with 3+ years of proven expertise in building robust and efficient applications. Skilled in developing scalable code, optimizing performance, and delivering high-quality solutions. Strong problem-solving abilities and a passion for continuous learning. Strong in programming fundamentals, and best practices.

SKILLS

Skills	Spring Boot, Spring MVC, Spring, Spring Security, Java, JPA, Hibernate, REST API, JSP, Servlet, Collection framework.
Development Tools	Eclipse ID, SpringToolSuite (STS), IntelliJ IDEA, Postman, Insomnia, Bitbucket, Git
Databases	MySQL, MongoDB
Operating System	Ubuntu, Windows 10, Windows 11

WORK EXPERIENCE   Jan 2022 to Till Date

SNVA Venture pvt.Ltd

Designed and developed a robust API framework using Java, enabling seamless integration with external systems and enhancing overall functionality.

Integrated Paytm Payment Gateway: Successfully integrated
Paytm payment gateway into the company's e-commerce platform, ensuring secure and seamless transactions.

Integrated ShipRocket: Shiprocket's suite of APIs provides a
powerful set of tools for managing the end-to-end logistics of an e- commerce business. By integrating these APIs into your platform, you can automate and optimize your shipping processes, improve customer satisfaction, and scale your operations effectively.

Developed and maintained web applications using Java, Spring Boot, and Hibernate. Working experience with REST APIs and Restful web services. Logical thinking and problem solving skills along with an ability to collaborate. Designed and developed a robust API framework using Java, enabling seamless integration with external systems and enhancing
overall functionality. Strong on programming fundamentals, best practices

PROJECTS

- **The label bar(https://www.thelabelbar.com):** I developed an eCommerce website using Spring Boot and REST APIs to provide a robust and scalable platform for online shopping. The website enables users to browse through various product categories, view product details, add items to their shopping cart, and complete secure transactions.

- Integration with External Services: Integrated with third- party services for functionalities such as shipping providers or email notifications, enhancing the overall customer experienc.

    Roles & Responsibilities:

- Interacting with the client to understand the project and finalize its scope.
- Estimation, design and development of various modules.
- Bug fixing, deployment and maintenance of the product.
- Coordinating with other teams working on the same project.
- URL:- https://crm.thelabelbar.com

Environment: J2SE, J2EE, Spring boot, MySQL, JdbcTemplate, Apache Tomcat 8.0.

- **ValueTicket(https://www.valueticket.com.mx):**Flight Booking: Implemented robust booking systems for flight booking, allowing users to search, compare, and book their desired accommodations and flights seamlessly Third-Party API Integration: Integrated third-party REST APIs to retrieve real-time data such as availability, pricing, and flight schedules, enhancing the user experience and expanding the range of options available to users

Roles & Responsibilities:

- Interacting with the client to understand the project and finalize its scope.
- Estimation, design and development of various modules.
- Bug fixing, deployment and maintenance of the product.
- Coordinating with other teams working on the same project.

Environment: J2SE, J2EE,Spring boot, MySQL, JdbcTemplate, Apache Tomcat 8.0.

EDUCATION

- **Bachelor of Technology** in Computer Science and Engineering from Uttarakhand Technical University Dehradun (U.K).
